Art Unit: 2133

1. This application has been examined.
2. In the amendment dated on July 26, 2004, claims 1-6 have been canceled and new claims 7-13 have been added.
3. The disclosure is objected to because of the following informalities: page 1, line 9 "Applicant Serial No.-----" should be changed to - - applicant Serial No. 09/845,879 - -.

Appropriate correction is required.

4. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 11, line 1, "The integrated circuit of claim 11" is indefinite because a claim can not be dependent on it self. Appropriate correction is required.

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 7-13 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 17-18 and 20 of

Art Unit: 2133

copending Application No. 09/845,879. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims 7-13 are broader in scope than the application '879 claims 17-18 and 20 by removing one or more limitation from the application' 879 claims (for example: "E. a first gate selectively connecting a test mode signal...; and F. tap lock circuitry ..."). Thus, the invention defined in claims 7-13 are an obvious variation of the application' 879 defined in the application' 879 claims 17-18 and 20.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
